

SY-760

Terminal Features

- Online / offline modes of operation
- Complex attendance reporting
- Job reporting / shop floor control reporting
- Real-time database queries
- *Wireless communication (optional)*

 **Payroll
Dynamics**

Your Payroll. Your Business. Your Future.

SY-760

Physical Characteristics

Dimensions:

- Height: 17 cm
- Width: 25 cm
- Depth: 9.5 cm
- Weight: 1.12 kg

Operating temperature: 0 - 40°C

Humidity: up to 95% RH

Power Requirements:

- Operating power - 110/230V AC@100mA
- Back-up battery (rechargeable included)

Interfacing

RS-485 for up to 32 terminals

RS-232 for host connection

Options:

- Internal 14,400 bps modem
- Ethernet 10/100 mHz
- Wireless Wi-Fi 802.11 b
- Bluetooth Class II

General Features

- Functions such as "swipe and go" and job tracking can be scheduled according to requirements
- Technician mode is available for convenient setup of terminal
- Bell activation is enabled according to input time programmed on terminal
- Enables scheduling of modem operation times
- Displays time in several formats (US, European, military or am/pm)

Technical Specifications

Includes:

- One relay for bell and door
- One sensor for door monitoring
- Additional serial ports for scale or printers

Memory:

- 512 KB, battery-backed
- Dynamic distribution of memory mapping

Display:

- Backlit LCD, 2 rows of 16 characters
- Alarm LED for irregularities notification

Keyboard:

- 6 function keys
- 10 numeric keys
- 2 scroll keys
- 4 control keys

Optional readers:

- Barcode 3 of 9, interleaved 2 of 5, code 128
- Magnetic (track I, II, III)
- Proximity (contactless at 125 kHz)
- Weigand (Mifare, HID, and Indala)
- Smart Card

Programming

The SY-760 operates in both offline and online modes :

Working offline

In offline mode, there is no need for immediate communication with PC during reporting. All controls and checks can be done independently by the terminal.

The SY-760 terminal using Syncomm (Synel's communication software), can be programmed to:

- Operate differently according to the day of the week
- Provide single/multi-step or conditional reporting
- Validate data
- Select the input source such as magnetic reader or keyboard
- Display the information from the internal database

Working online

Working with SY-Server:

- The SY-760 works as an interactive system with an external database
- Data is transferred automatically without polling
