

## Top 5 Reasons to Choose Our New User Interface

Consumer technology delivers simplicity and convenience to make life easier. Shouldn't you expect the same from the solutions you use at work? We're revolutionizing how people experience work — from pre-hire to retire — through our human capital management (HCM) solution's new and intuitive user interface. Our unified HCM suite allows your entire workforce to accomplish daily tasks — from applying for jobs and enrolling in benefits to managing time and tracking performance — with consumer-grade speed and ease. It's a seamless HCM experience that engages, delights, and empowers your people to perform at their full potential. When you choose our HCM solution, you'll benefit from the latest in technology advancements, including:

### 1 Efficient Navigation

We've streamlined every aspect of the user experience to **help you and your employees get more done, faster**. An intuitive interface, including a newly designed homepage, **provides easier navigation so you can complete tasks in fewer clicks**. Scroll through widgets with ease to perform your day-to-day tasks such as punching in and out, requesting time off, viewing paystubs, enrolling in benefits, and more. Thanks to new menu designs that are logically laid out and organized by module, you'll enjoy **instant access to your employee self-service items along with your favorite, most used screens to help you better manage your team**.

### 2 Game-Changing Reporting

Experience user-friendly report generation that **transforms traditional data into eye-catching charts and graphs with just a few simple clicks**. You can create interactive charts based on the data being captured within each report and easily share them across your organization to **better engage your team**.

### 3 Increased Visibility

Embedded analytics deliver **instant insights across your HCM experience to keep you ahead of the game and guide smarter decision making**. You can view trends at a glance and take immediate action directly from your dashboards. Each module has a fully responsive dashboard, which allows you to view metrics and drill down into each chart for greater visibility, **empowering both managers and employees to take action** with better strategic tools at their fingertips.

### 4 Anytime, Anywhere Access

With a responsive interface design that adapts to all your devices, including mobile, tablet, and desktop, you can **ensure your employees stay productive anytime, anywhere**. Enjoy new mobile features that allow you to enroll in benefits from your home, apply for a job on the train, request time off from the factory floor, and more **all from the convenience of your smartphone**.

### 5 Improved Geofencing Capabilities

Our updated mobile experience will provide **improved accuracy when restricting employees' mobile punches based on location**. Using real-time GPS coordinates, the system will now recommend cost centers based on an employee's location to make clocking in that much easier.
